

Meaningful Connections

This lively and engaging presentation is a game-changer for caregivers! People with dementia often perceive the world differently, so it takes skill to interpret what your loved one is trying to express. Our experienced dementia experts explain how tools used in improvisation can reduce stress and help you respond constructively to improve connection.

Thursday, Jan. 29, 2026
10–11:30 a.m.

Dementia Care and Education Campus
